# Alfred Vincent Kidder

**1885-1963**

American archaeologist and anthropologist whose pioneering work in the southwestern United States resulted in the first comprehensive regional synthesis of North American archaeology, *An Introduction to the Study of Southwestern Archaeology* (1924). Kidder's combined application of stratigraphical excavations and pottery typology revolutionized archaeology. In addition to the American Southwest, he also implemented a major multi-disciplinary study of the Maya regions of Mexico and Central America, bringing together archaeologists, ethnologists, and natural scientists.
